1. This memorandum is filed by the Riccarton/Wigram Community Board (the Board) in response to the Independent Hearings Panel directions to submitters of 3 December 2014 to provide further information in the form of identifying specific relief.
2. The Board has reviewed its initial submission dated 2 October 2014.
3. The Board considers that it has generally provided in its submission, the specific relief sought but for clarity and completeness, the attachment at **Appendix 1** refers. Where relevant, requested deletions are shown in strike through, while the new provisions (in the relief sought column) are shown in bold.
4. The Board records that it sought advice from the Secretariat on whether specific relief applied to cross submissions lodged or just to the Board's original October submission. The response received was that relief related to the original submission.
